Slovenian	Native
English	C1
German	A2

ABOUT ME

Computer Science & IT graduate also a junior software developer focused on building modern, scalable web applications with React and Next.js. I've taken projects from concept to full deployment, including client-facing sites and full-stack systems, with emphasis on clean architecture, performance, and usability. Particularly interested in backend systems and API design. Open to remote and on-site opportunities within commuting distance of Maribor.

PROJECTS

-  **Car Detailing Business Website**
Next.js, React, TailwindCSS, Vercel, Resend
 - Built a high-performance business website featuring pricing tables, image gallery, and Google Maps integration.
 - Optimized for speed and SEO to support local customer acquisition.
-  **Personal Trainer Website**
Next.js, React, TailwindCSS, Vercel, Resend
 - Developed a responsive landing page with client testimonials and an email subscription system.
 - Designed the layout and copy flow specifically to optimize conversion rate.
-  **Date Invitation Web App**
Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL, Neon, Vercel
 - Built a multi-step invitation flow with persistent responses, activity selection, and shareable unique invite links.
 - Implemented server actions with Zod validation and a PostgreSQL backend for storing and resuming invitation progress.
 - Deployed to production on Vercel with a mobile-friendly interactive UI, animations, and Open Graph sharing support.

EDUCATION

-  Bachelor of Computer Science & Information Technology University of Maribor (FERI)
2022-2025
