

# MARKO LEMPL

Junior Software Developer

Maribor, Slovenia | marko.lempl4@gmail.com | github.com/Mare88888 | linkedin.com/in/marko-lempl-067891ab

## PROFILE

Computer Science and Information Technology graduate, also a Junior Software Developer specializing in modern web applications using React and Next.js. I focus on building high-performance, scalable, and user-centric applications with clean architecture and maintainable code.

I have experience developing real-world projects from concept to deployment, including client-facing websites and full-stack systems. I prioritize performance, usability, and clean design, ensuring applications are both technically robust and visually polished.

I am particularly interested in backend systems, API design, and building complete end-to-end solutions that solve real problems. Open to international remote and relocation opportunities.

## TECH STACK

**Frontend:** React, Next.js, TypeScript, JavaScript, HTML, TailwindCSS

**Backend:** C#, .NET, Node.js, Java, Python | REST APIs, PostgreSQL, MongoDB

**Databases:** PostgreSQL, MongoDB

**Tools:** GitHub, Vercel, Docker

## PROJECTS

**Car Detailing Business Website** — Built a high-performance business website with pricing tables, gallery, and Google Maps integration.

Next.js, TailwindCSS, Vercel, Resend

**Personal Trainer Website** — Developed a responsive landing page with testimonials and email subscription system optimized for conversions.

Next.js, TailwindCSS, Vercel, Resend

**Fitness Progress Tracker** — Full-stack application for tracking workouts and progress analytics with REST API backend.

React, TypeScript, C#, .NET

## SKILLS

UI Development, Component Architecture, REST API Integration, Responsive Design, Full-Stack Development, Git Workflow, Performance Optimization, SEO Fundamentals

## EDUCATION

**Bachelor of Computer Science & Information Technology**

University of Maribor (FERI) — 2025
